I need a smidge of salt. We were quite a bit surprised. The documentary was much too long. You're such a fool! Can you name the most disgusting thing you've ever seen? It's too late now. You're too young to drive a car. The piece of cheese was too fossilized to fork. 😊 I knew Alice from long before I met you.

Inside Our Fridge by Kenn Nesbitt

Inside our fridge there's still a smidge
of old and moldy ham.

And, next to it, there's quite a bit
of dried-up, fried-up Spam.

The bacon in the crisper bin
has been there much too long.

The sausage links have such a stink.
Their smell is simply wrong.

The ribs and roast are both the most
disgusting ever seen.

Yes, every piece has rancid grease
and spots of bluish-green.

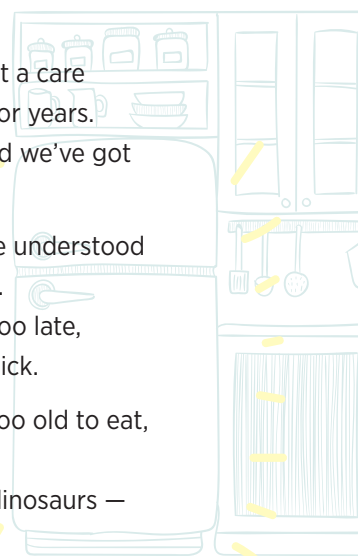

We left it there without a care
for weeks, or months, or years.

Now all this rotten food we've got
is bringing us to tears.

I guess we should have understood
It must be eaten quick.

And if we wait till it's too late,
It might just make us sick.

But now this meat — too old to eat,
too fossilized to fork,
from long before the dinosaurs —
is all Jurassic Pork.

Kdo jich bude mít nejvíc, zvítězil. Pozor, počítají se pouze názvy jídel a nápojů z řádků, jejichž konce tvoří rýmy!
